# IPS Sports Day

The much awaited and much loved Annual Sports Day was held on Thursday 9th January 2020, with great zeal, excitement and a frolicsome atmosphere. The activities started with the morning assembly followed by a short speech by Mr. Musab Alhasoun, the Boys' Section Principal, welcoming the esteemed gathering and emphasizing the importance of sports in our life inside and outside Al-Ittihad Private School.

Sports Day at AIPS is a platform to showcase the talent and efforts put in by the student to make it a successful event. Sports here at AIPS is not only about competition, it is also about having fun being physically active, learning the basics of sports and building coordination and teamwork. It also gives the students an opportunity to display their talent, self-confidence, patience, and sportsmanship.

Students of classes 6 to 12 competed in events including running race, fitness challenge, soccer, basketball, handball, volleyball, badminton and chess. Fun time with a staff relay and a tug-of-war between the teams added to the enjoyment.

At the end of that inspiring event, the overall champion trophy was awarded to the Red Team. Congratulations to all the teachers and students who took part. We all had a brilliant, reviving day that we all are looking for it to come again.

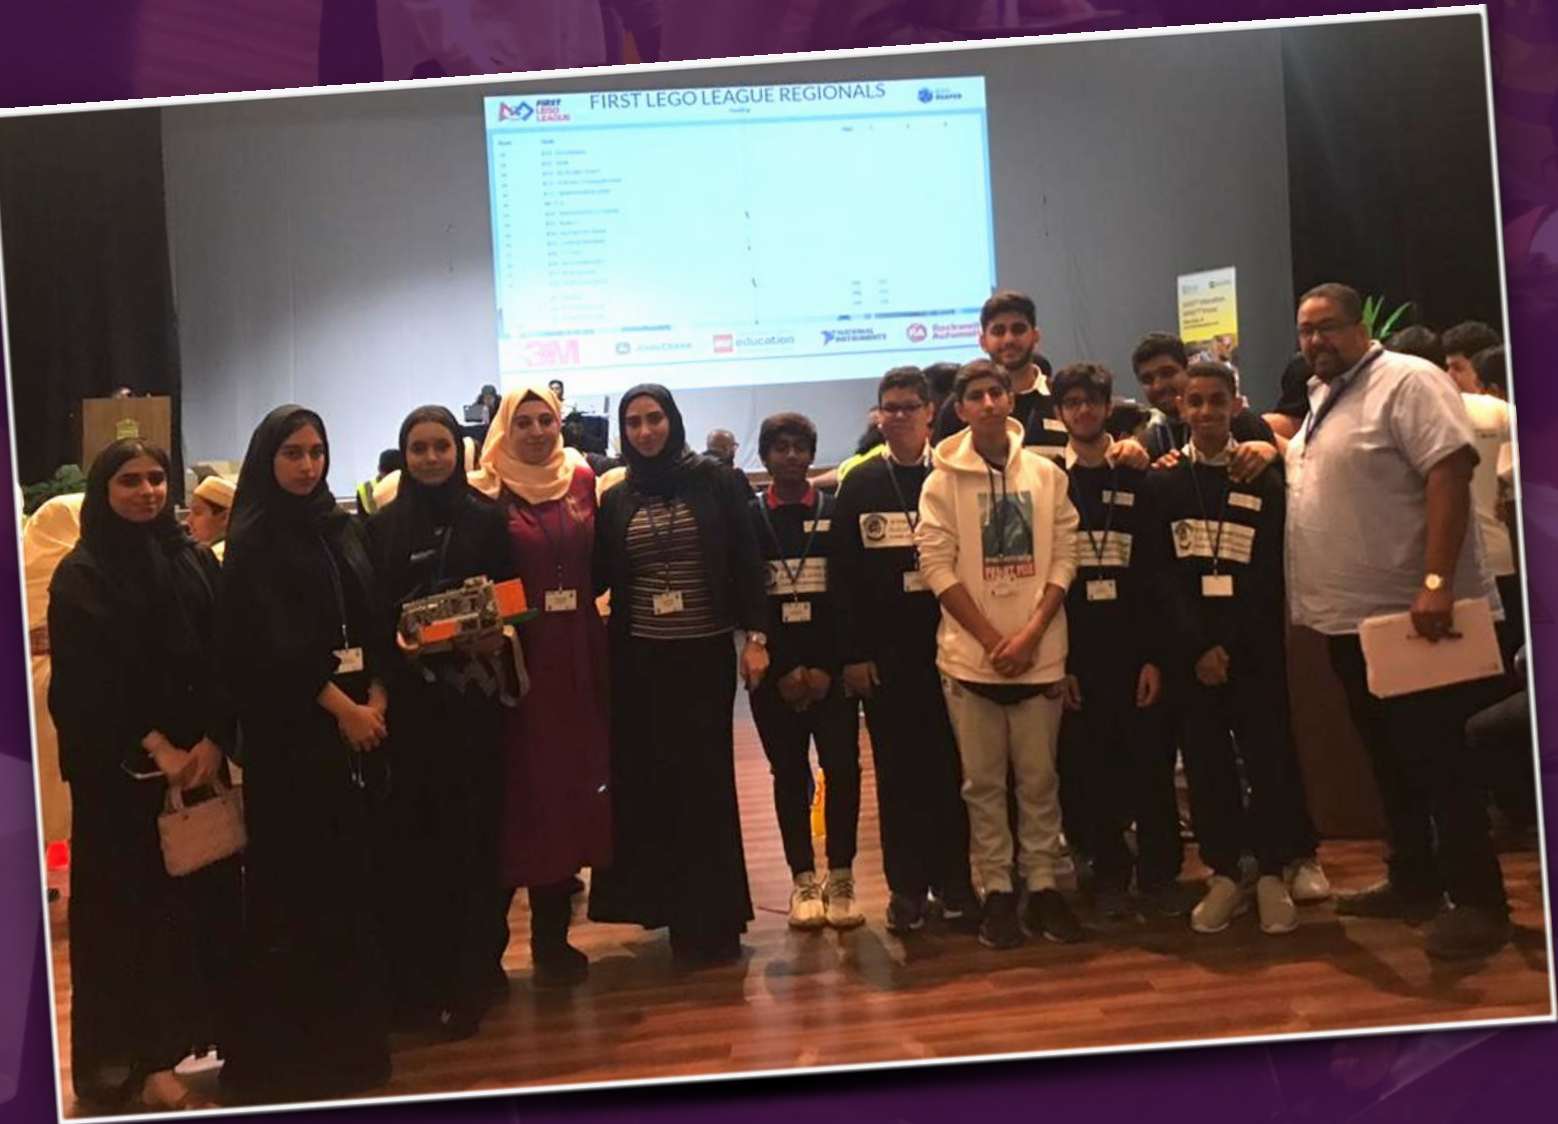

# FIRST LEGO LEAGUE COMPETITION

The basis of FLL is a robotics tournament in a cheerful atmosphere, where kids and youngsters need to solve a tricky “mission” with the help of a robot. The kids are researching a given topic within a team, they are planning programming and testing an autonomous robot to solve the mission. The FLL Teams take the opportunity to experience all steps of a real product development process: solving a problem under time pressure with insufficient resources and unknown competitors. FLL is a small microcosm of real business life in all its respects.

# IPS First Alumni Gathering

On January 21, 2020, Al Ittihad Private School, Mamzar, organized its first alumni gathering. All Al Ittihad alumni were invited to reunite with their previous teachers and administrators their teachers and administrators.

The gathering tickled everybody's memories and created a warm ambience among all the attendants. The alumni, many of whom having become parents and taken leading positions in different domains inside and outside the UAE, met the old staff members and enjoyed recalling memories of their school and childhood. They also shared their life experiences and successes. The alumni expressed their deep gratitude to their teachers for all the efforts they had put into nurturing their personal skills, knowledge, cultural values, and national belonging. The alumni also expressed keenness to be part of the school's future activities and events whenever their support would fit.

On this occasion, Al Ittihad Private School, Mamzar, would like to convey its deep pleasure at meeting its alumni and extends its heartfelt wishes of further success for all of them.

Mr. Max Caruso, the Director General of Al Ittihad Private School, Mamzar, expressed how proud the school is at being signatory to the Expo 2020 project. He said that the themes of Expo 2020 are mapped across the school curriculum. He added that partnership with many local and international universities had been secured so the school students may enjoy fee waivers and scholarships. Furthermore, Mr. Max said that Al Ittihad School established a partnership with the American University of Sharjah and the American University of Dubai. Another partnership has been established also with Stanford University, so the school students will enjoy access to pre collegiate courses that are run onsite.

Finally, Mr. Max added, "As a school community, we proudly live our own contribution to Nation building through education, as Al Ittihad Private school celebrates 40+ Years of Excellence in Education. A milestone we will celebrate in March.

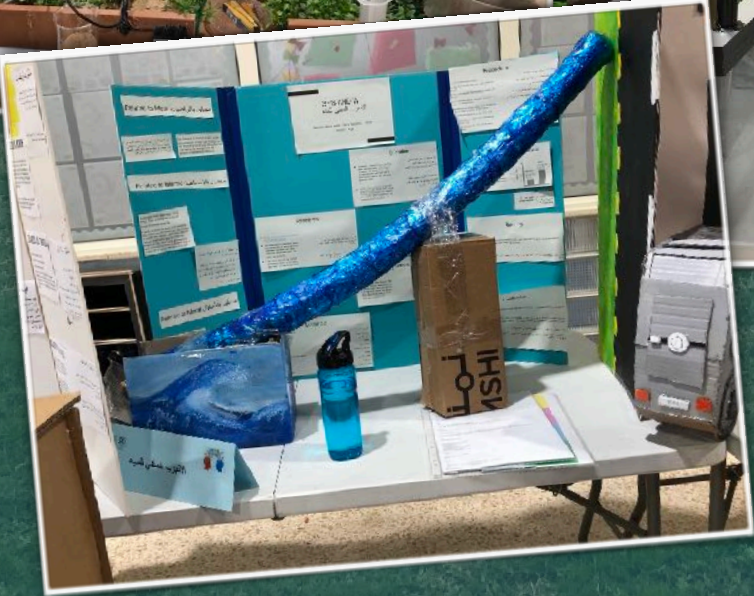

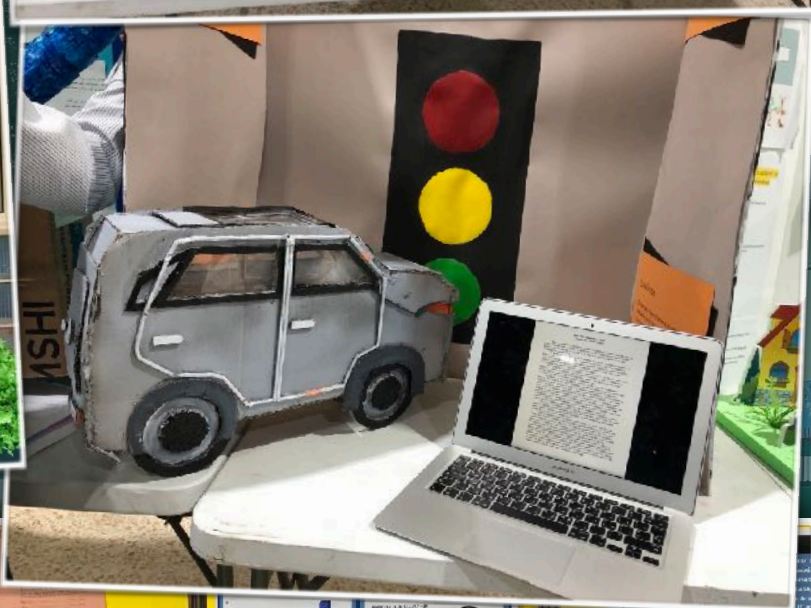

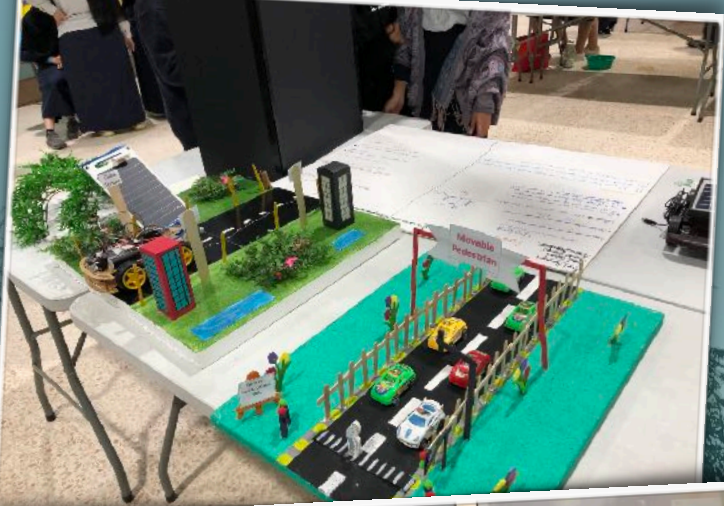

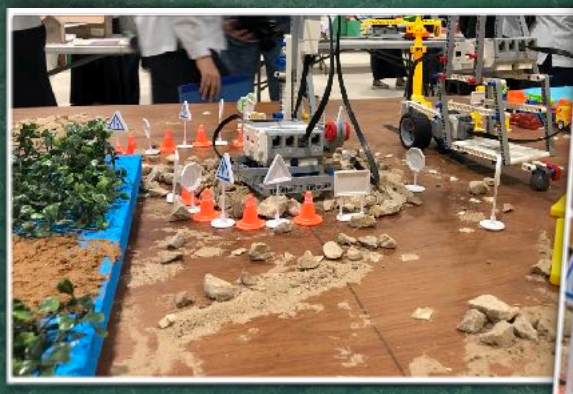

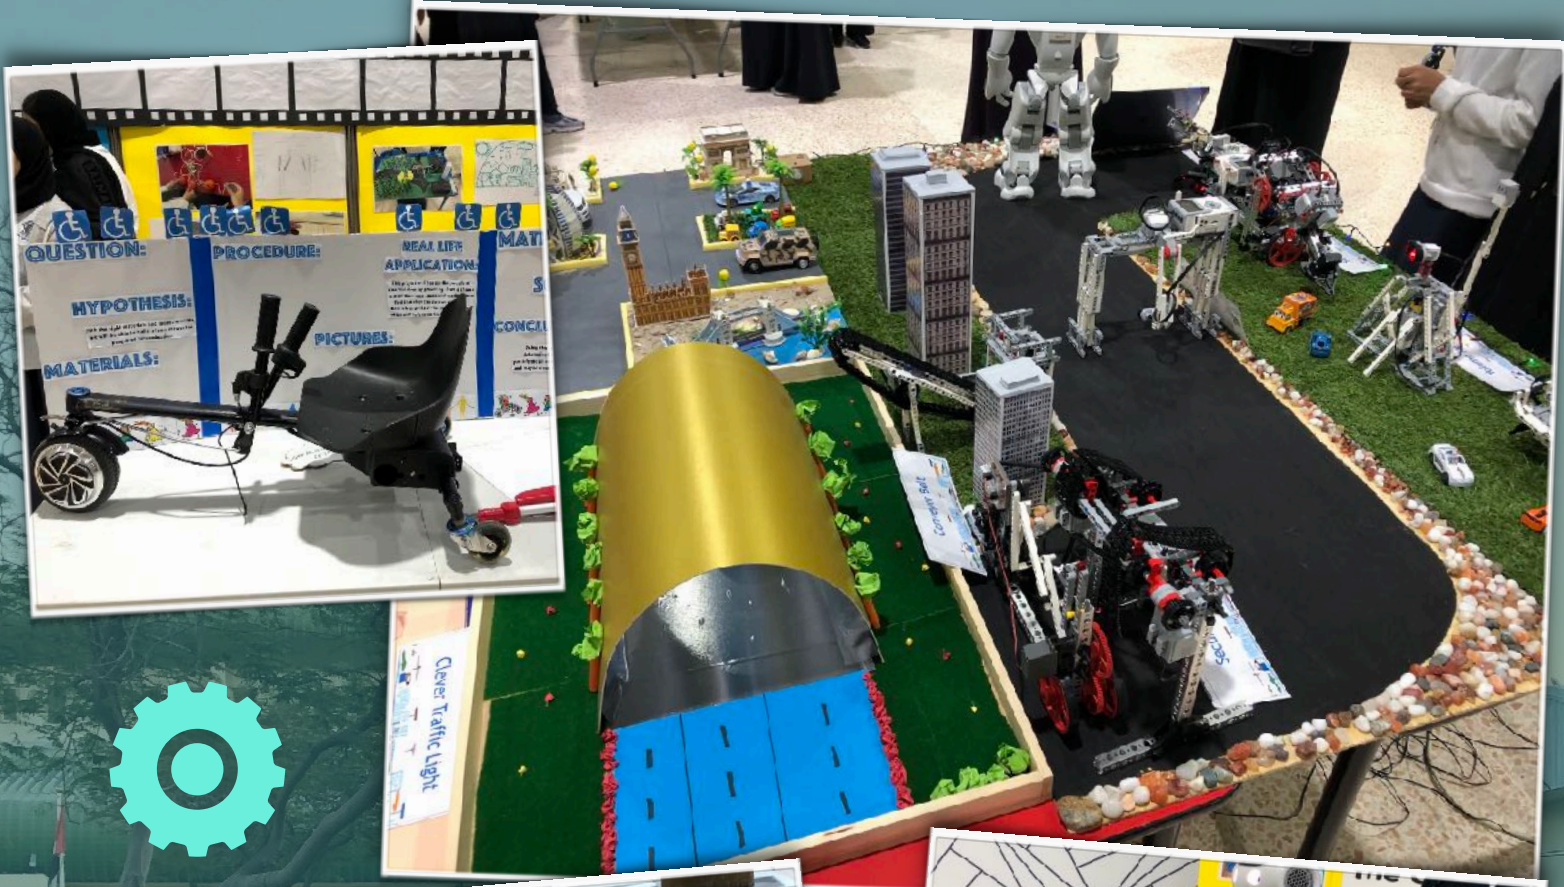

# IPS INNOVATES

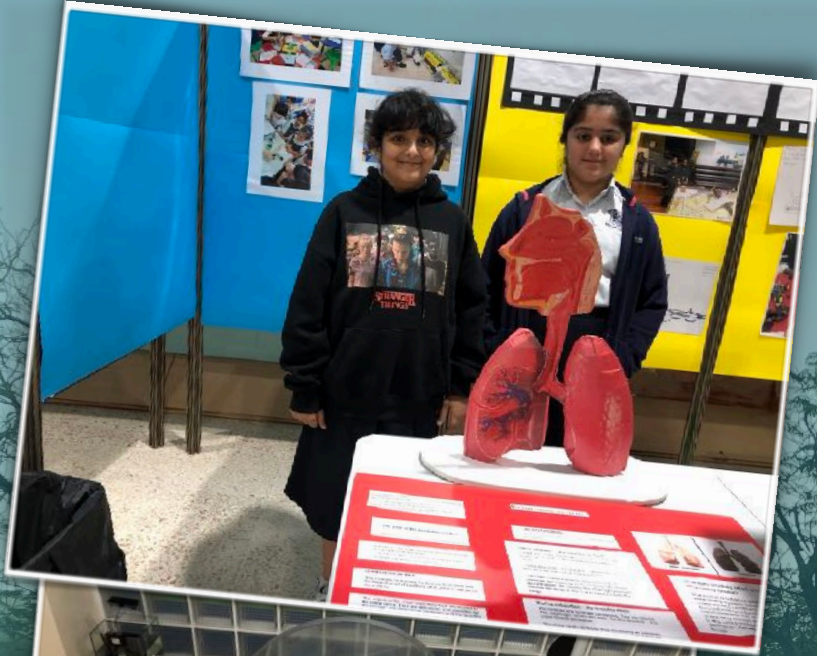

Innovation Day has become something of buzzword at IPS Mamzar. Every year students display their abilities and ideas by displaying projects to solve problems encountered regionally and globally. Since this year, IPS Mamzar is committed to participate in EXPO 2020, innovation day themes were based on EXPO 2020 themes "Opportunity, Mobility, and Sustainability". Students projects had to fit under an EXPO 2020 theme. Students came with a variety of ideas that ranged from mega projects like sustainable city designs, traffic congestion solutions, sustainable farming to small scale projects like energy generation from speed bumps, automatic watering systems, and solar cars. Projects were cross-curricular and integrated across all subjects.

# قسم التربية الإسلامية

## العمرة

نظمت دائرة التربية الإسلامية رحلة لأداء مناسك العمرة لما لها من أثر إيجابي في تعزيز القيم الإسلامية ومعرفة معالم السيرة النبوية بصورة واقعية تواكب معالم الحياة، وتضمنت الرحلة عدة أنشطة وفعاليات وزيارات علمية لأهم معالم البقاع المقدسة.

## محاضرات توعوية

عقدت دائرة التربية الإسلامية بالتعاون مع دائرة الشؤون الإسلامية والعمل الخيري في دبي ضمن برنامج مستمر على مدار العام الدراسي عدة محاضرات دينية، إيماناً منها بعظيم أثرها في نشر قيم الإسلام السمحة وبناء المهارات الشخصية والاجتماعية لدى طلابنا.

## تسليم المشاريع

قام الطلبة بتنفيذ مشروعات تتناول جوانب حياتية متعددة، كتقديم حلول لمشكلات اجتماعية، أو زرع قيمة إيجابية، أو بيان سلبيات حول قضايا وعادات يومية، مما أسهم في تنمية مهارات التفكير، والعمل المستقل لدى أبنائنا الطلبة، والوصول إلى المعرفة بأنفسهم.

The Arab World needs to embark on a journey of innovation, and prepare the ground for the rise of the creative revolution, creative class and creative society, for the region to transform their economies into full-fledged knowledge-based economies.

## SOUND PROPAGATION USING LASER BEAM

Our grade 11 students Mohammad Al Hashmi, Hassan Folad and Abdulrahman Al Rumaithi, under the guidance of Mr. Monir, participated in The Ministry of Education's, 4th edition of the National Science, Technology and Innovation, NSTI, Festival on 4<sup>th</sup> to 8<sup>th</sup> February 2020. Their project on "Sound Propagation Using Laser Beams" was awarded 2<sup>nd</sup> place in the competition. Our IPS project won the award out of 100 projects that were displayed for the competition.

The most important of which is the Emirates Young Scientist Competition, which attracted 2,472 projects submitted by 5,791 male and female students from 427 government and private schools. Out of all 2472 projects, our IPS project was selected.

The competition included projects on technology, biological sciences, environment, chemistry, physics, mathematics, and social and behavioral sciences. The variety of field topics represented enables students to participate later in specialized festivals and scientific events at international levels.
